PROJECTS/PORTFOLIOS

React App with Nasa APi and Responsive Design
In this react application, data is fetched from the Nasa Api, data can be filtered with date range, Facebook style reaction, and Facebook share. The layout is fully responsive.
- Live Demo: https://deepspacestagram.netlify.app/
- GitHub Link: https://github.com/rathore90/spacestagram

Ecommerce CMS Website
The Ecommerce CMS system is built with Node, MongoDB, Stripe, EJS, and Auth0. This app has authentication, authorization, role based authentication/authorization, MVC design pattern, and secured api endpoint.
- GitHub: https://github.com/rathore90/Node-Project

Mern Stack App with JWT
This application has mern stack mvc system design feature with JWT authentication and authorization. Redux thunk has been implemented to handle the global state.
- GitHub: https://github.com/rathore90/Mern-Stack-With-JWT

Contentful Gatsby CMS Project
This is a dynamic website, and built with JamStack. User can easily change the content by using CMS portal(No code is required to change the content). In this application Gatsby, Contenful, react, and graphQL, HTML, CSS, and JavaScript technologies are used.
- Live Demo: https://samandsam.netlify.app/

React Recipe App
Third party api(Edamam) is used to build this app in React to get the recipes based on used input(Fruits and Vegetables). I got to explore the react hooks and how to handle the data efficiently.
- Live Demo: https://nifty-yonath-ce84a4.netlify.app/
